***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 172-185 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "A computer program product" does not constitute statutory subject matter.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 113, 131 and 158 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U. S. Patent No. 5,504,905 to Cleary et al.

As per claims 113, 131 and 158, Cleary et al. disclose a subsystem coupled to the subsystem, wherein the logging module is configured to periodically communicate information regarding a configuration of the subsystem.

***Allowable Subject Matter***

Claims 114-130, 132-157, 159-171 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***
